

NUCLEAR MEDICINE TECHNOLOGIST DUBBO – LOCUM POSITION

Orana Radiology is looking for a Nuclear Medicine Technologist to do a 7 week locum. The dates required are July 10th to August 25th 2017 inclusive.

The position is suitable for a qualified Nuclear Medicine Technologist who can work autonomously in a single camera department. Experience using Siemens SPECT/CT equipment is essential.

The position is based at Dubbo, in a comprehensive imaging practice that provides a diverse range of diagnostic procedures to the regions hospitals, cancer centre and surrounding communities.

To qualify for the role, you will have:

- A recognised qualification in Nuclear Medicine
- Current EPA license for Nuclear Medicine and CT for NMT
- AHPRA registration

A generous locum rate is on offer for the appropriate candidate.
