

Nuclear Medicine Technologist - Canberra Diagnostic Imaging

- State of the Art New Hospital Site
- Full Time Position
- Professional Working Environment

Healthcare Imaging Services (HIS) operates over 140 imaging sites in Australia, performing more than 2.2 million examinations annually. HIS provides a full variety of imaging facilities including within public hospitals, private hospitals, medical centres and community-based sites and employs over 2,000 technical, nursing and administrative staff.

HIS strives to be the leading provider of medical imaging services in Australia by empowering and supporting our people to deliver outstanding clinical care that embraces best practice and innovation.

An exciting opportunity currently exists for a motivated, team orientated and high performing Nuclear Medicine Technologist to join Canberra Diagnostic Imaging in the ACT on a full time basis. Forming part of the Healthcare Imaging Services network, this growing department provides high-quality nuclear medicine imaging SPECT/CT to in and out patients.

To qualify for the role, you will have:

- A recognised qualification in Nuclear Medicine
- Current EPA license for Nuclear Medicine
- AHPRA registration
- Siemens experience will be an advantage but not essential
- Have an appropriate Australian or New Zealand work visa.

Core Competencies:

- Commitment to the provision and promotion of quality health care within the confines of a private practice setting
- Demonstrated ability to perform high quality Nuclear Medicine examinations employing correct techniques to the accepted industry standard or above.
- Excellent interpersonal skills and demonstrated ability to communicate effectively with patients, staff and other medical and non-medical personnel verbally and in writing.
- Self-motivated and committed to ongoing professional development
- Strong work ethic
- Strong time management skills, ability to work autonomously and in a team environment
- Ability to adapt and respond to change

In return, the right candidate will enjoy an attractive remuneration package commensurate with experience.

If you value collaboration, innovation, service excellence, integrity and accountability then join us and together we will improve the quality of our patients' lives through innovation excellence in medical imaging; please send your resume and covering letter to
